	AquaPro Super Anti-Mould Wash 111
PRODUCT INTRODUCTION	ON
Recommended Uses	For interior & exterior concrete, plaster & brickwalls, etc.
Description	This product is a water based microbicide with persistent effectiveness. It is suitable for disinfection of wall surfaces.
Features	 Effectively disinfect against bacteria, moulds, fungi & algae. Long lasting Water base
Standard Packing	2L
TECHNICAL DATA	
Base Resin	Quaternary ammonium compound
Color	Colorless liquid
APPLICATION	
Recommended Thinner	Clear Water
Cleaning Solvent	Clear Water
Method of Application	 Surfaces to be coated must be sound, clean, free from dust, rust, oil, grease, moisture and foreign matters. For recoating old surfaces, all chalked and scaled materials must be removed before application. Dilute 2 parts of anti-mould solution with 1 part of water by volume. Reduce dilution ratio if the moulds are serious. Ready-to-use after thinning with clear water and stirring thoroughly. Apply thinned anti-mould solution on infected surface with new towel and stay at least 6 hours. After 6 hours, clean with new towel and water. Use new towels in each process to avoid mould contamination. Let surface dry, then apply 2 coats of AquaPro Protect Emulsion Paint 380 series or Camel Excellent Interior Emulsion Anti-Mould & Virus 252 series.
Recommendations for Application	 Maintain temperature in areas to receive coatings at minimum 5 deg. C, during application and until coatings have cured. Application is recommended to carry out on fine day. Using new towels in the procedures is a must, to avoid cross infection of mould.
SAFETY PRECAUTION	
Dangerous Goods Classification	Not applicable
Shelf-Life	24 Months
Product Storage, Delivery & Handing	 Material should be delivered and stored in undamaged, original manufacturers' containers. Keep container closed when not in use. Store at cool, dry place.
Health & Safety Precautions	 Ingestion Eye contact Skin contact Skin contact Skin contact Send the affected person to hospital or obtain medical attention immediately. Do not induce vomiting. Flush immediately with water and get medical care. Flush immediately with water and remove contaminated clothing. If irritation persists, refer for medical attention.
